

## Penalty for APKP A-2 Pool handling train on return trip from KPT

Crews called in APKP A-2 pool that take a train to Kingsport and bring train back to Erwin should submit a penalty claim (example below) for taking the train back to Erwin. Tn. The request for another time ticket is being denied; therefore we need to begin the process of submitting these claims in order to create an issue when the APKP A2 pool is required to protect turnaround service instead of straight away service.

Example of Claim:

Constructive Code: TA
